

MSM-MMF-WRNWM

Webex Room Scheduling Navigator - Face Mount

Description

This kit allows the mounting of a Cisco Webex Room Navigator to a mullion face. This bracket fastens to our proprietary anchor plate to provide a permanent solid mounting point for the bracket. This bracket does not use adhesives or double sided tape to fasten to glass which has proven to be a common failure point.

All cabling is routed internally and hidden within the chassis for a clean look.

This kit includes a drill template for ease of installation.

Compatibility

Webex Room Scheduling Panel
